OWNER'S MANUAL
Important Safety Instructions

**WARNING**

The lightning flash with an arrowhead symbol, within the equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product’s enclosure that may be of sufficient magnitude to cause an electric shock.

The exclamation point within the equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in this owner manual.

**WARNING:** TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

**WARNING:** TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH WIDE BLADE OF PLUG TO WIDE SLOT, FULLY INSERT.

**CAUTION**

INVISIBLE LASER RADIATION WHEN OPEN AND INTERLOCKS DEFATED.

This product contains a low power laser device.

---

**On Placement**

- Do not use the Unit in places which are extremely hot, cold, dusty, or humid.
- Place the Unit on a flat and even surface.
- Do not restrict the air flow of the Unit by placing it in a place with poor air flow, by covering it with a cloth, or by placing it on carpeting.

**FCC Information**

This device complies with Part 15 of FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesirable operation.

**On Safety**

- When connecting or disconnecting the AC cord, grip the plug and not the cord itself. Pulling the cord may damage it and create a hazard.
- When you are not going to use the Unit for a long period of time, disconnect the AC power cord.

**On Condensation**

- When left in a heated room where it is warm and damp, water droplets or condensation may form inside the Unit. When there is condensation inside the Unit, the Unit may not function normally. Let the Unit stand for 1 to 2 hours before turning the power on, or gradually heat the room up and dry the Unit before use.

**WARNING:**

- Should any trouble occur, disconnect the AC power cord and refer servicing to a qualified technician.
- Do not place anything directly on the top of the Unit. Damage to the Unit can result.

**Notes on Copyright**

It is forbidden by law to copy, broadcast, show, broadcast on cable, play in public, rent copyrighted material without permission.

Apparatus Claims of U.S. Patents Nos. 4,631,603; 4,577,216; 4,819,098 and 4,907,093 licensed for limited viewing uses only.

DVD video discs are copy protected, and any recordings made from these discs will be distorted. This product incorporates copyright protection technology that is protected by method claims of certain U.S. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only, unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.
Important Safety Instructions

1. Read Instructions - All the safety and operating instructions should be read before the appliance is operated.
2. Retain Instructions - The safety and operating instructions should be retained for future reference.
3. Heed Warnings - All warnings on the appliance and in the operating instructions should be adhered to.
4. Follow Instructions - All operating and use instructions should be followed.
5. Water and Moisture - The appliance should not be used near water - for example, near a bathtub, washbowl, kitchen sink, laundry tub, in a wet basement, or near a swimming pool, and the like.
6. Carts and Stands - The appliance should be used only with a cart or stand that is recommended by the manufacturer.
6A. An appliance and cart combination should be moved with care. Quick stops, excessive force, and uneven surfaces may cause the appliance and cart combination to overturn.
7. Wall or Ceiling Mounting - The appliance should be mounted to a wall or ceiling only as recommended by the manufacturer.
8. Ventilation - The appliance should be situated so that its location or position does not interfere with its proper ventilation. For example, the appliance should not be situated on a bed, sofa, rug, or similar surface that may block the ventilation openings; or, placed in a built-in installation, such as a bookcase or cabinet, that may impede the flow of air through the ventilation openings.
9. Heat - The appliance should be situated away from heat sources such as radiators, heat registers, stoves, or other appliances (including amplifiers) that produce heat.
10. Power Sources - The appliance should be connected to a power supply only of the type described in the operating instructions or as marked on the appliance.
11. Grounding or Polarization - Precautions should be taken so that the grounding or polarization means of an appliance are not defeated.
12. Power-Cord Protection - Power-supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords at plugs, convenience receptacles, and the point where they exit from the appliance.
13. Cleaning - The appliance should be cleaned only as recommended by the manufacturer.
14. Power Lines - An outdoor antenna should be located away from power lines.
15. Outdoor Antenna Grounding - If an outside antenna is connected to the receiver, be sure the antenna system is grounded so as to provide some protection against voltage surges and built-up static charges. Section 810 of the National Electrical Code, ANSI/NFPA No. 70, provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna-discharge unit, connection to grounding electrodes, and requirements for the grounding electrode. See Figure 1.
16. Nonuse Periods - The power cord of the appliance should be unplugged from the outlet when left unused for a long period of time.
17. Object and Liquid Entry - Care should be taken so that objects do not fall, and liquids are not spilled, into the enclosure through openings.
18. Damage Requiring Service - The appliance should be serviced by qualified service personnel when:
   A. The power-supply cord or the plug has been damaged; or
   B. Objects have fallen, or liquid has been spilled, into the appliance; or
   C. The appliance has been exposed to rain; or
   D. The appliance does not appear to operate normally or exhibits a marked change in performance; or
   E. The appliance has been dropped, or the enclosure damaged.
19. Servicing - The user should not attempt to service the appliance beyond that described in the operating instructions. All other servicing should be referred to qualified service personnel.

FIGURE 1 EXAMPLE OF ANTENNA GROUNDING AS PER NATIONAL ELECTRICAL CODE

Disc Formats

The Unit can playback:

- **DVDs**
  - [8cm(3")/12cm(5") disc]
- **MP3 CDs**
- **Audio CDs**
  - [8cm(3")/12cm(5") disc]
- **JPG FILES**
- **CD-R CD-RW**

**Region Management Information**

This Unit is designed and manufactured to respond to the Region Management Information that is encoded on DVD discs. If the Region number printed on the DVD disc does not correspond to the Region number of this Unit, this Unit cannot play that disc.

The region number of this Unit is 1.

**Disc Function or Operation that is Not Available**

When the [ ] symbol appears on the TV screen, it indicates that the function or operation attempted is not available at that time. This occurs because the DVD disc manufacturer determines the specific functions. Certain functions may not be available on some discs. Be sure to read the documentation provided with the DVD.

**Icons Used on DVDs**

- [ ] Language selections for audio
- [ ] Language selections for subtitles
- [ ] Screen aspect ratio
- [ ] Multiple camera angles
- [ ] Region code indicator

**Notes:**

This Unit supports 2-channel (L/R) audio and 5.1ch (Multi-channel) MPEG Audio 1/2 (only when the DIGITAL AUDIO OUT coaxial jack is used for connection). It does not support 7.1 channel MPEG Audio Version 2.0.

When playing back a CD-G (Graphics) or CD EXTRA disc, the audio portion will be played, but the graphic images will not be shown.

**Title, Chapter and Tracks**

DVDs are divided into "titles" and "chapters". If the disc has more than one movie on it, each movie would be a separate "title". "Chapters" are sections of titles.

Audio CDs are divided into "tracks". A "track" is usually one song on an Audio CD.

**Note:**

Numbers identify each title, chapter, and track on a disc. Most discs have these numbers recorded on them, but some do not.

**Notes on Unauthorized Discs**

You may not be able to play back some DVD discs on this Unit if they were purchased from outside your geographic area or made for business purposes.
Before You Start

Using the Remote Control
• Point the Remote Control at the REMOTE SENSOR located on the Unit.
• When there is a strong ambient light source, the performance of the infrared REMOTE SENSOR may be degraded, causing unreliable operation.
• The recommended effective distance for remote operation is about 16 feet (5 meters).

To install Batteries
1. Open the battery door.
2. Insert two "AA" or UM-3 size batteries.

Battery Replacement
When batteries become weak, the operating distance of the Remote Control is greatly reduced and you will need to replace the batteries.

Notes:
• If the Remote Control is not going to be used for a long time, remove the batteries to avoid damage caused by battery leakage corrosion.
• Do not mix old and new batteries. Do not mix ALKALINE, standard (CARBON-ZINC) or rechargeable (NICKEL-CADMIUM) batteries.
1) **STANDBY/ON button**
   - Turns the Unit on and puts it in standby mode.

2) **RETURN button**
   - Return to the normal operation after using the SETUP menu.

3) **Number (0 - 9) and (+10) buttons**
   - Use when creating programs, and entering a parental level password. To select numbers over 9, press +10 button and then the second no. for example, to enter 18, press +10 and then 8.

4) **5.1/2.1 CHANNELS button**
   - Switch speaker output to 5.1 channel mode. (All speakers + subwoofer)
   - Switch speaker outputs to 2.1 channel. (Front left/right speakers + subwoofer)

5) **MEMORY button**
   - Enter the number of a selected chapter or track.
   - Enter the number of a selected station.

6) **DIMMER button**
   - Adjust the brightness of the front panel display to the level you prefer.

7) **PRO LOGIC II button**
   - In AV-IN mode, switches to Dolby Pro Logic mode for VHS tapes encoded with Dolby Pro Logic.

8) **VOLUME (+/-) buttons**
   - Adjust the volume.

9) **SETUP button**
   - Selects the SET UP menu screen.

10) **A / V CURSOR buttons**
    - Use to highlight selections on a menu screen and adjust certain settings.

11) **SLOW button**
    - Perform slow reverse playback of DVDs.

12) **TUNING buttons**
    - "": Fast reverse playback.
    - "": Fast forward playback.
    - "": Scan all available radio stations.

13) **STOP button**
    - Stop playback.

14) **PREV button**
    - Move reverse through titles, chapters or tracks on a disc.
    - Tune to the presetted stations.

15) **CLEAR button**
    - Clear input selections and cancel certain playback functions.

16) **DISPLAY button**
    - Change disc status information displayed on the TV.

17) **ANGLE button**
    - Switch the camera angle of the video presentation when scenes with multiple camera angles are recorded on a DVD.

18) **SUBTITLE button**
    - Select one of the subtitle languages programmed on a DVD.
19) FUNCTION button
Display the FUNCTION screen where you can check or change various settings.

20) OPEN/CLOSE button
Use to open or close the disc tray.

21) GOTO button
Skip directly to a specific location on a DVD disc.

22) SOUND button
Selects sound balance and tone controls for adjustment with the cursor buttons.

23) P. SCAN/CVBS button
Changing YUV output to Progressive Scan Video mode.

24) \(\leftarrow \rightarrow\) CURSOR buttons
Use to highlight selections on a menu screen and make adjust certain settings.

25) MENU button
Open and close DVD's menu.

26) ENTER button
Confirm selections on a menu screen.

27) SLOW \(\rightarrow\) button
Perform slow forward playback of DVDs.

28) \(\Rightarrow\) PLAY button
Start playback.

29) II PAUSE button
Pause playback, frame advance.

30) NEXT \(\rightarrow\) button
Move forward through titles, chapters or tracks on a disc.

31) ZOOM button
Zoom into an image.

32) AUDIO button
Select one of the audio soundtracks programmed on a DVD or selects the audio output mode on an AUDIO CD.

33) BAND/REPEAT-DISC button
Switch between AM(MW) or FM.
Repeat chapter or title of a DVD.
Repeat single track or whole CD.

34) FM MODE/REPEAT A - B button
Set FM MODE to FM STEREO for FM stereo sound or to FM MONO for mono sound.
Perform point-to-point repeat playback on a DVD or CD.
Parts and Functions

Front Panel

1) Disc tray
   - Open or close tray by pushing OPEN/CLOSE button.
   - Place a disc on the disc tray, label side up.

2) Standby indicator
   - When the unit is turned on by pressing the STANDBY/ION button, the light will illuminate a few seconds. If you press STANDBY/ION button on the Remote control, the Unit will turn off and go to standby mode. The light will continue to illuminate.

3) PRO LOGIC II indicator
   - When PRO LOGIC sound selected in AVJN mode, the light will illuminate.

4) Display window
   - Display system information.

5) VOLUME control
   - Change the loudness of the sound from the speakers connected to the unit.

6) Remote sensor
   - Receive the remote control unit signals.

7) FUNCTION button
   - Select the source.

8) STOP button
   - Stop playing a disc.

9) PAUSE button
   - Press to pause playback. Each time you press the PAUSE button the picture advances one frame. Press the PLAY button to resume.

10) PLAY button
    - Press to start or resume playback

11) SKIP buttons
    - Press SKIP button to go back to previous chapters/tracks.
    - Press and hold SKIP button to begin fast scan.
    - Four speeds are available.

12) OPEN/CLOSE button
    - Use to open and close the disc tray.

Note:
- Screen saver - If no button is pressed within 2 minutes, the function will active, if you want to return the normal screen, press any button.

Rear Panel

14) FM ANTENNA jacks
15) S-VIDEO OUT (DVD) output jack
16) VIDEO OUT jack
17) DIGITAL AUDIO OUT jack
18) AUDIO IN (Left/Right) jacks
19) Right FRONT speaker terminals
20) SUBWOOFER terminals
21) Left REAR speaker terminals
22) Left FRONT speaker terminals
23) AM LOOP ANTENNA terminal
24) COMPONENT VIDEO jacks (Y, Pb/Cb, Pr/Cr)
25) Left/Right AUDIO OUT jacks
26) VIDEO IN (VCR) jack
27) Right REAR speaker terminals
28) CENTER speaker terminals
29) Power cord
### Display

**Front Panel Display**

- **CHAPTER/TRACK indicator:** When a DVD is loaded in the Unit, this indicator appears along with the chapter number. When an Audio CD is loaded in the Unit, this indicator appears along with the track number.

- **STEREO indicator:** When a DVD is loaded in the Unit, this indicator appears when an FM broadcast is in stereo.

- **TITLE indicator:** When a DVD is loaded in the Unit, this indicator appears along with the title number.

- **REPEAT A-B playback indicator:** Displayed during repeat playback.

- **OPERAATION indicator:** Indicates the operation status of the disc and Unit.

- **MEMORY indicator:** Displayed during programmed playback.

- **ANGLE indicator:** Appears when multiple camera angles are recorded in the section of the DVD that is currently playing.

- **TOTAL/REMAIN/TOTAL indicator:** Indicates the elapsed playback time of the disc. With some discs, this area also shows the total play time of the disc when playback is stopped.

- **DOLBY DIGITAL indicator:** Displays while Dolby Digital sound processing is being performed or when the loaded disc contains Dolby Digital sound.

### Display Information

The DVD displays the information shown below on the TV screen and on the Unit's DVD display depending on the operation status.

#### Display Examples

#### Region (Local) Number Error Indicator

If the region (local) number of the disc that you attempt to play differs from the region number of the Unit, "Invalid Region" appears on the TV screen. (The disc cannot be played.)
**Setup**

**Connecting your TV**

The Unit can be connected to your TV in several different ways, depending on the design of your TV.

**Audio/Video Jacks**

*Connect the included Audio/Video cable.*

Connect the VIDEO OUT and left/right AUDIO OUT jacks to the VIDEO and left/right AUDIO IN jacks on your TV.

**Note:**

If you want the sound come from the speakers of the Main Unit, you need not to connect the left/right AUDIO OUT jacks from the Main Unit to your TV.

**Video Jack**

Use an S-Video cable (not supplied) and the Audio cable (not supplied).

Use an S-Video cable to connect the S-VIDEO (DVD) jack on your Unit to the S-VIDEO IN jack on your TV.
**Setup**

*Component video outputs (DVD)*

Some TVs or monitors are equipped with component video inputs. Using the Audio cable (not supplied), connect the left/right AUDIO OUT jacks on your Unit to the left/right AUDIO IN jacks on your TV and the Component video cable (not supplied), connect the Green plug Y VIDEO OUT jack on your Unit to Y VIDEO IN jack on your TV, the Blue plug Pb/Cb VIDEO OUT jack on your Unit to Pb/Cb VIDEO IN jack on your TV and the Red plug Pr/Cr VIDEO OUT jack on your Unit to Pr/Cr VIDEO IN jack on your TV to view the higher quality picture playback.

*Progressive outputs (DVD)*

Some TVs or monitors are equipped with component video inputs that are capable of reproducing a progressively scanned video signal. Using the Audio cable (not supplied), connect the left/right AUDIO OUT jacks on your Unit to the left/right AUDIO IN jacks on your TV and the Component video cable (not supplied), connect the Green plug Y VIDEO OUT jack on your Unit to Y VIDEO IN jack on your TV, the Blue plug Pb/Cb VIDEO OUT jack on your Unit to Pb/Cb VIDEO IN jack on your TV and the Red plug Pr/Cr VIDEO OUT jack on your Unit to Pr/Cr VIDEO IN jack on your TV to enjoy highest quality picture with less flicker.

Press the SETUP button and select Video Output to YUV (see page 28). Connect the component video cable to TV, press the P. SCAN button on the remote control when DVD is stopped. "P. SCAN" will be displayed. You can select the output signal for better picture quality.

**Attention:**

- When progressive scan is activated, there is no video signal output from the S-video and RCA (CVBS) video jacks.
- Make sure your TV supports progressive scan component video signal, press the P. SCAN button repeatedly until "CVBS" is displayed to go back to CVBS video signal.

**Notes:**

- Connect the Unit to your TV directly. If you connect the Unit through a VCR, the playback picture will be distorted because DVD discs are copy protected.
- When you connect the Unit to other equipment, be sure to turn off the power and unplug all of the equipment from the wall outlet before making any connection.
- Refer to the instruction manual of the connected equipment as well.
1. Connecting a VCR

Using the supplied Audio/Video cable, connect the yellow plug from VIDEO OUT jack on your Unit to VIDEO IN jack on your TV, connect the left and right AUDIO OUT jacks on your Unit to AUDIO IN jacks on your TV. If you want the sound come from the speakers of the Main Unit, you need not to connect these left and right Audio cable from the Main Unit to your TV.

Using the Video cable (not supplied), connect the VIDEO IN (VCR) jack on your Unit to VIDEO OUT jack on your VCR.

Using the Audio cable (not supplied), connect the left/right AUDIO IN jacks on your Unit to the AUDIO OUT jacks on your VCR.

Watching a Videotape

Turn on the Unit, use the FUNCTION button on the remote control or the front panel to select "AV IN".

Turn on your TV and follow the instructions included with it to select the VIDEO input which corresponds to the VIDEO IN jack that is connected to the Unit.

Turn on the VCR and follow the instructions included with it to play the videotape.

Note:
If you have a mono VCR, the volume level from the speakers will be low. To avoid this, connect the left/right audio out from the Unit to the left/right audio inputs on your TV using the supplied A/V cable.

S-video and Component Video jacks (Y, Pb, Pr) is only for DVD.

Connecting another source

Analog connection

Using the Audio cable (not supplied), connect the left/right AUDIO OUT jacks on your Unit to the AUDIO IN jacks on your other equipment.

Digital connection

Using the Coaxial Digital Audio cable (not supplied), connect the DIGITAL AUDIO OUT on your Unit to the DIGITAL AUDIO IN jack on your other equipment.

Turn on the Unit.
Turn on your audio equipment and follow the instructions included with it to select the AUDIO IN or DIGITAL IN function.

Tips:
When you connect the Unit to other equipment, be sure to turn off the power and unplug all of the equipment from the wall socket before making any connection.

If the external equipment is a television and this audio system is close to it, you may experience interference if the tuner function is selected while the television is working.

When you have selected TUNER function, sound will ONLY come from the front left, right speakers and subwoofer.

If you have a stereo VCR, make sure you set it in stereo mode.

Due to copyright protection, DVD movies cannot be copied. If you copy a DVD movie onto a videotape, the resulting copy will be endless, with poor sound quality. This is NOT caused by a defective DVD system.

Refer to the instruction manual of the connected equipment as well.
D. Connecting the speakers & subwoofer
The speaker cords have been color-coded to simplify connection. Just plug the POSITIVE (+) and NEGATIVE (-) ends of each speaker wire into the corresponding jacks on the rear of the Unit, matching the color tube on the end of the speaker wire to the color-coded connector.

E. Positioning the speakers and subwoofer
FRONT SPEAKERS
Place on both sides of the TV, equal distances apart.

CENTER
Place on the top of or below the TV.

SUBWOOFER
Can be placed anywhere.

REAR SPEAKERS
Place right beside or slightly behind your listening position, and a little higher than your ears.
Setup

Mounting rear surround speakers

1. Mark the correct mounting position on the wall.
2. Insert a fixing screw(s) at the marked position on the wall.
3. Align the slot hole(s) of the speaker over the screw and pull the speaker downward until it is firmly hooked.

Turning on the Unit and TV

1. Press the STANDBY/ON button to turn the Unit ON, or
2. Press the STANDBY/ON button on the remote control or the FUNCTION button or the PLAY button to turn on the Unit while the Unit is in standby mode.
3. Turn on the TV by pressing its POWER button.
4. Select the channel on your TV corresponding to the VIDEO IN jack that the Unit is connected to. See TV User guide for more information.
   - If you have connected the Unit successfully, the DVD logo (start-up picture) will appear on your TV screen.

Notes:
- Whenever no disc or disc stop for 60 minutes, the system will be turned to POWER standby mode automatically.
- The LED of Standby will be turned on while the unit is at standby mode.

Power cord connection

Make sure that all the components and speakers are connected correctly.
To prevent electric shock, match wide blade of plug to wide slot, fully insert.
Be sure the AC power cord is disconnected and all functions are off before making connections.
When you are not going to use the Unit for a long period of time, disconnect the power cord.
Adjusting the Sound

To adjust the surround sound balance while Dolby Pro Logic II decoding is in effect

Use the remote control to make the following changes to speaker balance:

Front speaker (left)
- Press the SOUND button repeatedly to display LEFT, then press the ▼ or ▲ CURSOR button to adjust the sound level. It will show on the display of the Unit.

Front speaker (right)
- Press the SOUND button repeatedly to display RIGHT, then press the ▼ or ▲ CURSOR button to adjust the sound level. It will show on the display of the Unit.

Center speaker
- Press the SOUND button repeatedly to display CENTER, then press the ▼ or ▲ CURSOR button to adjust the sound level. It will show on the display of the Unit.

Rear speaker (left)
- Press the SOUND button repeatedly to display REAR L, then press the ▼ or ▲ CURSOR button to adjust the sound level. It will show on the display of the Unit.

Rear speaker (right)
- Press the SOUND button repeatedly to display REAR R, then press the ▼ or ▲ CURSOR button to adjust the sound level. It will show on the display of the Unit.

Subwoofer
- Press the SOUND button repeatedly to display WOOFER, then press the ▼ or ▲ CURSOR button to adjust the sound level. It will show on the display of the Unit.

Note:
- If you do not press any button within a few seconds, the display will return to normal.

To adjust the sound quality

Press the SOUND button repeatedly to select an equalization mode (BASS, TREBLE). Press the ▼ or ▲ CURSOR button to adjust the sound level.

BASS: the low range of sounds
TREBLE: the high range of sounds

Bass and treble control the sound from the front left and right speakers.

Dolby Digital

Dolby Digital is a sound system developed by Dolby Laboratories Inc. that gives movie theatre ambiance to audio output when the Unit is connected to a Dolby Digital 5.1 channel processor or amplifier.

This Unit automatically recognizes DVDs that have been recorded with Dolby Digital.

Not all Dolby Digital sources are recorded with 6 channels. Some sources marked Dolby Digital may be recorded in Dolby Surround, a 2 channel system.

Look for this logo on your DVD Unit.

Dolby Pro Logic II creates five full-bandwidth output channels from two-channel sources. This is done using an advanced, high-purity matrix surround decoder that extracts the spatial properties of the original recording without adding any new sounds or tonal colorations.

Movie Mode

The Movie mode in Pro Logic II is very similar to that of the original Pro Logic decoder. The main difference is that it has stereo surround channels and no surround filter, unlike Pro Logic which has a mono surround channel and a 7 kHz surround filter. Movie mode is the standard required for all A/V systems. When an auto sound unit has a video screen, it is also considered an A/V system. It can be called simply "Pro Logic II".

Music Mode

The Music mode offers users some flexibility to control the end results to their own taste. Music mode should not be used with THX audio processing mode. Music mode is recommended as the standard mode for autosound music systems (without video), and is optional for A/V systems. It is recommended that Music mode be identified as the "Music" version of Pro Logic II, to distinguish it from the Movie mode.
Locating a specific title DVD
If a DVD disc contains title numbers, you can locate a specific title by directly selecting a title number.
1. In stop mode, press the GOTO button.
2. Press \( \uparrow \), \( \downarrow \), \( \leftarrow \), or \( \rightarrow \) button to highlight a specific field and press the corresponding number button(s) for the title you want.
3. Press the ENTER button to confirm. The Unit will start playback about 3 seconds later.

Note:
- Pressing the CLEAR button resets the title number.

Locating a specific title / chapter / track DVD CD
If you know the title / chapter / track number you want to play, you can locate a specific title / chapter / track by directly selecting a title / chapter / track number.
1. Press the GOTO button to search your desired title / chapter / track.
2. Press \( \uparrow \), \( \downarrow \), \( \leftarrow \), or \( \rightarrow \) button to highlight a title/chapter/track and press the corresponding number button(s) for the chapter you want.
3. Press the ENTER button to confirm. The Unit will start playback about 3 seconds later.

Note:
- Pressing the CLEAR button resets the title / chapter / track number.
Playing a Disc

Fast Forward/Fast Reverse

Press the TUNING or TUNING button when a disc is playing.

- The disc begins fast scan at x2 speed.
- Four speeds are available. Each time TUNING or TUNING button is pressed, the speed of fast scan changes in the following sequence: x2 —> x4 —> x8 —> x20

Note:
You can press and hold SKIP button on front panel repeatedly to select different fast scan speed.

Press the PLAY button when you reach the desired point to resume playback at normal speed.

Slow-motion play

Press the SLOW or SLOW button in the play mode.

- Two speeds are available. Each time SLOW or SLOW button is pressed, the speed of slow-motion playback changes in the following sequence: 1/2 —> 1/4 or 1/2 —> 1/4

Press the PLAY button to return to the normal playback speed.

KIP (Forward / Reverse)

While you are playing a disc, press the NEXT button of the remote to move to the beginning of the next chapter or track. Press the PREV button of the remote to move to the previous chapter or track and automatically start playing it.

Zooming into an image

While a disc is playing, press the ZOOM/NTSC/PAL button.

While an image is zoomed, you can use , , , and buttons to shift the view and display the part you want.

To return to the normal view, press the ZOOM/NTSC/PAL button until the "Off" symbol shows. The screen will return to normal.

When you reach the edge of the image, the display will not shift anymore in that direction.
Fast Forward/Fast Reverse

Press the TUNING » or ← TUNING button when a disc is playing.
• The disc begins fast scan at x2 speed.
• Four speeds are available. Each time TUNING » or ← TUNING button is pressed, the speed of fast scan changes in the following sequence:

   

   x 2 → x 4 → x 8 → x 20

   

**Note:**
You also can press and hold ← SKIP » button on front panel repeatedly to select different fast scan speed.
Press the PLAY button when you reach the desired point to resume playback at normal speed.

Slow-motion play

Press the SLOW » or ← SLOW button in the play mode.
• Two speeds are available. Each time SLOW » or ← SLOW button is pressed, the speed of slow-motion playback changes in the following sequence:

   

   1/2 → 1/4 or 1/2 → 1/4

   

Press the PLAY button to return to the normal playback speed.

SKIP (Forward / Reverse)

While you are playing a disc, press the NEXT button of the remote to move to the beginning of the next chapter or track. Press the PREV button of the remote to move to the previous chapter or track and automatically start playing it.

Zooming into an image

While a disc is playing, press the ZOOM button.
While an image is zoomed, you can use , , , and button to shift the view and display the part you want.
To return to the normal view, press the ZOOM button until the "Off" symbol shows. The screen will return to normal.

When you reach the edge of the image, the display will not shift anymore in that direction.
Playing a Disc

Angle selection
Some DVDs contain scenes which have been shot from a number of different angles. For these discs, the same scene can be viewed from each of these different angles.

1. While you are playing a DVD with different angles recorded, press the ANGLE button to view the number of the current angle.

2. Press the ANGLE button repeatedly to change the scene to the next angle in those recorded.
   - About two seconds later, playback continues from the new angle you selected.
   - If no button is pressed within 10 seconds, playback continues without changing the current angle.

Sequence of angle shots
(Example)

Notes:
- This function can only be used for discs on which scenes shot from multiple angles have been recorded.
- If only one angle is recorded, "E114" is displayed.

Audio selection
On some discs, the sound is recorded in two or more formats. Follow the directions below to select the type of playback.

1. While a disc is playing, press the AUDIO button to show the current audio format number.

2. Press the AUDIO button repeatedly to select the desired audio format.

Notes:
- If only one audio format is recorded, the number does not change.
- About two seconds later, playback continues in the new audio format.

Subtitle selection
1. While a DVD is playing, press the SUBTITLE button to display the current language setting, as shown in the example below.

2. Press the SUBTITLE button repeatedly to select the desired subtitle language.

Notes:
- If only one language is recorded, the language does not change.
- About two seconds later, playback continues with the new subtitle you selected.
- The number of languages recorded differs depending on the disc.
- If no button is pressed within a few seconds, playback continues without changing the current subtitle.
- This function can only be used for discs on which subtitles have been recorded in multiple languages.
- On some DVDs, subtitles are activated from the main menu of the DVD. Press the MENU button to activate the main menu.
**DISPLAY function**

Using DISPLAY, you can check and change the current settings of the following items: ANGLE, AUDIO and SUBTITLE.

- While the disc is playing, press the DISPLAY button to display the screen shown below.
  - **Elapsed time:** Elapsed time from the beginning of the chapter which is currently playing.
  - **Remaining time:** Remaining time of the title which is currently playing.

Press the DISPLAY button twice to display the screen shown as below.

- Press the ANGLE, AUDIO and SUBTITLE button to change the selected item.

**Title skip**
- The number of the title currently playing and total titles of disc.
- Press the GOTO button to set your desired title, then press the ENTER button to confirm.

**Chapter skip**
- The number of the chapter currently playing and total chapters of the currently played title.
- Press the GOTO button to set your desired chapter, then press the ENTER button to confirm.

**Time skip**
- Elapsed time from the beginning of the currently playing chapter and the remaining time from the beginning of the currently playing title.
- Press the GOTO button to set your desired point to start playback, then press the ENTER button to confirm.

**Angle setting**
- The current angle is displayed. When a disc with only one angle is played back, "Hone Angle in" is displayed.
- Press the ANGLE button to select the desired angle.

**Audio setting**
- The type of audio currently selected is displayed.
- Press the AUDIO button to select your desired type of audio.

**Subtitle setting**
- The subtitle number and language currently selected is displayed. When a disc with only one subtitle is played back, "No Subtitle" is displayed.
- Press the SUBTITLE button to select your desired language.

**GOTO function**

This function allows you to skip directly to any part of the disc while a disc is playing.

---

**Note:**
- After settings, press the DISPLAY button again to return to the normal screen.
Locating a specific title

If a DVD disc contains title numbers, you can locate a specific title by directly selecting a title number.
1. In stop mode, press the GOTO button.
2. Press ‹ or › button to highlight a specific field and press the corresponding number button(s) for the title you want.
3. Press the ENTER button to confirm. The Unit will start playback about 3 seconds later.

Note:
• Pressing the CLEAR button resets the title number.

Locating a specific title / chapter / track

If you know the title / chapter / track number you want to play, you can locate a specific title / chapter / track by directly selecting a title / chapter / track number.
1. Press the GOTO button to search your desired title / chapter / track.
2. Press ‹ or › button to highlight a title / chapter / track and press the corresponding number button(s) for the chapter you want.
3. Press the ENTER button to confirm. The Unit will start playback about 3 seconds later.

Note:
• Pressing the CLEAR button resets the title / chapter / track number.
Special Functions

Locating a specific time
You can move to a specific location by entering its corresponding time (hours, minutes, seconds).
1. Press the GOTO button.
2. Press ▲ or ▼ button to highlight time.
3. Press the corresponding number buttons for the setting point you want.
   • The first two numbers you entered represent hours.
   • The second two numbers you entered represent minutes.
   • The third two numbers you entered represent seconds.
4. Press the ENTER button to confirm. The Unit will start playback about 3 seconds later.

Notes:
• Some discs may not respond to this process.
• Some scenes may not be located as precisely as you specified.
• This method for accessing specific locations is available only within the current title of the DVD disc.
• You can move through the menu by pressing the ▲ and ▼ buttons.
• Pressing the CLEAR button resets the time.

Angle setting
1. Press the DISPLAY button twice. The FUNCTION menu is displayed on the screen and you can see how many angles are recorded on the disc.
2. Press the ANGLE button repeatedly to select your desired angle.
3. The Unit will change to your desired angle about 3 seconds later.

Audio setting
1. Press the DISPLAY button twice. The FUNCTION menu is displayed on the screen and you can see how many audio formats are recorded on the disc.
2. Press the AUDIO button repeatedly to select your desired type of audio.
3. The Unit will change to your desired type audio about 3 seconds later.

Subtitle setting
1. Press the DISPLAY button twice. The FUNCTION menu is displayed on the screen and you can see how many subtitle formats are recorded on the disc.
2. Press the SUBTITLE button repeatedly to select your desired language.
3. The Unit will change to your desired language about 3 seconds later.
CD / DVD programmable memory.

Programmable memory **DVD**
The two types of programmed playback provided by this Unit are title programmed playback and chapter programmed playback.

Title / Chapter programmed playback
1. Press the MEMORY button while the disc is stopped.
2. Enter the title numbers in Title. Use • or • button to move the highlight to chapter and enter the chapter numbers in Chapter.
3. Use • or • button to move to the other field.
4. Repeat steps 2 to 3.
5. Press the ▶ PLAY button to start the programmed playback.

Notes:
- If you press the ■ STOP button, the programmed selections will be cleared.
- If you press the CLEAR button while you are entering a title or chapter, the currently entered numbers will be erased and you can reset the numbers again.

Programmable memory **CD**
Track programmed playback
1. Press the MEMORY button while the disc is stopped.
2. Enter the track numbers in Track.
3. Use • or • button to move to the other field.
4. Repeat steps 2 to 3.
5. Press the ▶ PLAY button to start the programmed playback.

Note:
- If you press the CLEAR button while you are entering a track, the currently entered numbers are erased and you can reset the numbers again.
Repeat Playback

Can play a specific title or chapter repeatedly.
(Repeat, chapter repeat, A-B repeat)

**Peating a title (DVD)**
Can play the same title repeatedly.
While the disc is playing, press the REPEAT DISC button until the "Repeat Title" indicator displays on the screen. The current title is played repeatedly.

**Peating a chapter**
Can play the same chapter repeatedly.
While the disc is playing, press the REPEAT DISC button until the "Repeat Chapter" indicator displays on the screen. The current chapter is played repeatedly.

**Resume normal playback**
While the disc is playing, press the REPEAT DISC button until the "Off" indicator displays on the screen.

**Peating a single track (CD)**
Can play the same track repeatedly.
While the disc is playing, press the REPEAT DISC button until the "Repeat Single" indicator displays on the screen. The current track is played repeatedly.

**Peating a whole disc**
While the disc is playing, press the REPEAT DISC button until the "Repeat All" indicator displays on the screen. The whole disc is played repeatedly.

**Resume normal playback**
Press the REPEAT DISC button until the "Off" indicator displays on the screen.

**Peating a specific section (DVD)**
Can play a specific section repeatedly.
While the disc is playing, press the REPEAT A-B button at the beginning of the section (Rep A) is displayed you want to play repeatedly.

Press the REPEAT A-B button again at the end of the section (Rep A - B) is displayed.
The Unit will immediately begin replaying your selection.

**Resume normal playback**
While the disc is playing, press the REPEAT A-B button until the "Off" indicator displays on the screen.

**Notes:**
- Repeat can only be used within the same title. If the start and end of the section to be repeated are in different titles, repeat is cancelled.
- A-B repeat function does not operate in scenes where different camera angles are recorded.
Playing MP3 and Picture File Disc

This Unit will play MP3 and Picture files recorded on CD-R and CD-RW discs.

Playing a MP3 file disc

1. Press the OPEN /CLOSE button, the disc tray opens.
2. Insert a MP3 file disc on the disc tray with the label side up.
3. Press the OPEN /CLOSE button, the disc tray closes.
4. The Unit will take a short while to load the disc and automatically begin playback.

To pause playback
• Press the PAUSE button. To resume playback again, press the PLAY button.

To stop playback
• Press the STOP button.

To skip to the next or previous file
• Press the NEXT button on the remote control briefly while playing, to skip ahead to the beginning of the next file. Each time you press the button consecutively, the beginning of the next file is located and played back.
• Press the PREV (Previous) button on the remote control briefly while playing, to skip back to the beginning of the previous file. Each time you press the button consecutively, the beginning of the previous file is located and played back.
• You also can press the GOTO button, set the track number you want and then press the ENTER button.

Note:
• You can not play in Fast reverse or Fast forward during MP3 playback.

On-screen display

Turn on your TV to view the on-screen display of MP3 files.
• Press the CURSOR button on the remote control to select the file you want to listen to, then press ENTER button and this selected file is located and played back.

Notes:
The ability of this Unit to read MP3 discs is dependent on the following:
• The Bit Rate must be within 64 - 256 kbps.
• The total number of files on the disc should not exceed 254.
• The maximum number of directories should not exceed 32.
• The maximum depth level of directories should not exceed 4.
• File names should be named using 12 or fewer letters and/or numbers, and must incorporate the "MP3" file extension. EXAMPLE: *.*.MP3 where each * is a letter or number.
• Use only letters and/or numbers in file names. If you use special characters, the file and/or folder names may not be displayed correctly on the on-screen display.
• When recording on CD-R discs, use 74-minute (650MB) discs.
• The CD-R or CD-RW discs should be "finalized" in computer by "single session format".
• See your CD/MP3 creation software for details.
Playing MP3 and Picture File Disc

Playing a Picture file disc
1. Press the OPEN/CLOSE button, the disc tray opens.
2. Insert a Picture CD on the disc tray with the label side up.
3. Press the OPEN/CLOSE button, the disc tray closes.
4. The unit will take a short while to load the disc.
5. Press the PLAY button. The next picture will automatically display after 6 seconds.

Notes:
- If you press the MENU button on the remote control in full-screen review, the Unit will display a menu of 9 thumbnail images.
- Use the cursor to highlight the NEXT or PREV in thumbnail screen and then press the ENTER button to review other images. If you want to review one image in full-screen, you can use the CURSOR button to highlight the image and then press the ENTER button to confirm. The image you selected will show on TV in Full-Screen and automatically display one by one in about 6 seconds intervals.
- You can press the PAUSE button to interrupt playback, and press the PLAY button to resume playback.
- You also can use GOTO function or use the numbered buttons to enter the number to quickly select any image.
- You can press the ZOOM button to enlarge the picture in 3 levels.
- Press the ANGLE button on the remote control to rotate the picture orientation by 90°.

Playing a MP3/Picture file disc
1. Press the OPEN/CLOSE button, the disc tray opens.
2. Insert a MP3/Picture CD on the disc tray with the label side up.
3. Press the OPEN/CLOSE button, the disc tray closes.
4. The unit will take a short while to load the disc.
5. Use the button to select MP3 or Picture CD, then press the ENTER button.

Note:
The SETUP button does not work during MP3 or Picture Disc playback or stop.
Customizing the Function Settings

Put off when a wide-screen video image is played.

4:3 Pan Scan
• When wide-screen video material is played, this mode clips the right and left sides of the image so that it can be viewed on a conventional TV screen.
• Some wide-screen DVDs that do not permit Pan Scan mode playback are automatically played in letterbox mode (black bands top and bottom).

4:3 Letter Box
• When wide-screen video material is played in this mode on a conventional TV screen, black bands appear at the top and bottom of the screen.

16:9 Wide-screen
• This is the correct mode for playing wide-screen videos on a wide-screen TV.
• You must also set the screen mode on your wide-screen TV to "FULL".

Notes:
The displayable picture size is preset on the DVD disc. Therefore the playback picture of some DVD discs may not conform to the picture size you select.
When you play DVD discs recorded in the 4:3 picture size only, the playback picture always appears in the 4:3 picture size regardless of the TV shape setting.
If you select 16:9 wide-screen mode and you own a 4:3 TV set, the DVD playback picture will be horizontally distorted during playback. Images will appear to be horizontally compressed. Always be sure that your TV shape conforms to the actual TV in use.

Video Output
Press the SETUP button.
Use •< or ^ button to select Video, then press the ENTER button.
Use A or T button to select Video Output, then press the ENTER button.
Use A or T button to shift and select the signal, then press the ENTER button.
To exit the FUNCTION SETUP MENU and return to the normal screen, press the RETURN button.

YUV: Corresponding to your TV which has a YUV input. S-video may not have video signal if YUV is selected instead of CVBS.

Attention:
Always set Video Output in CVBS, otherwise, the picture on the TV may be distorted. If this occurs, and you cannot see the screen, press the P. SCAN button repeatedly until the "CVBS" display. Display may failed to show "CVBS" case there is no disc or tray opened.
Customizing the Function Settings

**AUDIO setting**

**Digital Out**
1. Press the SETUP button.
2. Use < or > button to select Audio, press the ENTER button.
3. Use A or T button to select Digital Out, and then press the ENTER button repeatedly to select Digital Out type.
4. To exit the FUNCTION SETUP MENU and return to the normal screen, press the RETURN button.

RAW : Does not have a Dolby Digital Decode.
PCM : Do have a Dolby Digital Decode.

**L/R Speaker**
1. Press the SETUP button.
2. Use < or > button to select the Audio, press the ENTER button.
3. Use A or T button to L/R Speaker, and then press the ENTER button.
4. Use A or T button to select the desired setting, and then press the ENTER button.
5. To exit the FUNCTION SETUP MENU and return to the normal screen, press the RETURN button.

Small : Small size of Speaker.
Large : Large size of Speaker (speaker diameter normally larger than 4 inch or 10 cm)

Note : You can adjust the channel balance on your Unit. Please see "ADJUSTING THE SOUND" on page 15.
Customizing the Function Settings

Subwoofer
1. Press the SETUP button.
2. Use << or >> button to select the Audio, press the ENTER button.
3. Use ▲ or ▼ button to Subwoofer, and then press the ENTER button.
4. Use ▲ or ▼ button to select the desired setting, and then press the ENTER button.
5. To exit the FUNCTION SETUP MENU and return to the normal screen, press the RETURN button.

Note:
• You can adjust the channel balance on your Unit. Please see "ADJUSTING THE SOUND" on page 15.

Surround Delay
1. Press the SETUP button.
2. Use << or >> button to select the Audio, press the ENTER button.
3. Use ▲ or ▼ button to Surround Delay, then repeatedly press the ENTER button to select the desired Surround Delay type. 0/15ms, 5/20ms, 10/25ms or 15/30ms appears.
4. To exit the FUNCTION SETUP MENU and return to the normal screen, press the RETURN button.

Notes:
• The first number represents the Dolby Digital and the second number represents the Pro Logic.
• The delay adjustment depends on the location of your surround speakers and the front speakers. If the location of the surround speakers is closer than the front speakers, the delay adjustment can compensate the distance difference.
Customizing the Function Settings

**AUDIO setting**

**Digital Out**

1. Press the SETUP button.
2. Use •« or • button to select Audio, press the ENTER button.
3. Use A or T button to select Digital Out, and then press the ENTER button repeatedly to select Digital Out type.
4. To exit the FUNCTION SETUP MENU and return to the normal screen, press the RETURN button.

Customizing the Function Settings

**Center Delay**

Press the SETUP button.

Use • or • button to select the Audio, press the ENTER button.

Use • or • button to Center delay, then repeatedly press the ENTER button to select the desired Center Delay type. 0ms, 1ms, 2ms, 3ms, 4ms or 5ms appears.

To exit the FUNCTION SETUP MENU and return to the normal screen, press the RETURN button.

**Pink Noise**

Press the SETUP button.

Use • or • button to select the Audio, press the ENTER button.

Use • or • button to Pink Noise, and then press the ENTER button.

To exit the FUNCTION SETUP MENU and return to the normal screen, press the RETURN button.

---

*Note:

This delay adjustment depends on the location of your center speaker. If the distance between the center speaker and the listener is less than the distance between the front right and left speaker and the listener, this delay adjustment is balanced.

**Pink Noise**

*ff* : Pink noise test mode should always be switched off, unless you are testing your speakers.

*left*: Pink noise comes out from front left speaker for testing.

*center*: Pink noise comes out from center speaker for testing.

*right*: Pink noise comes out from front right speaker for testing.

*left sur*: Pink noise comes out from rear surround left speaker for testing.

*right sur*: Pink noise comes out from rear surround right speaker for testing.

*subwoofer*: Pink noise comes out from subwoofer for testing.

Note:

When using the pink noise generator to test your speakers, you can press the SOUND button on the remote control to adjust the channel balance. Please "Adjusting the Sound" on page 15.
Customizing the Function Settings

**Subwoofer**
1. Press the SETUP button.
2. Use < or > button to select the Audio, press the ENTER button.
3. Use ▲ or ▼ button to Subwoofer, and then press the ENTER button.
4. Use ▲ or ▼ button to select the desired setting, and then press the ENTER button.
5. To exit the FUNCTION SETUP MENU and return to the normal screen, press the RETURN button.

On" should be selected if your subwoofer is connected.
If "Off" is selected, no sound will be emitted by subwoofer.

Note:
• You can adjust the channel balance on your Unit. Please see "ADJUSTING THE SOUND" on page 15.

**Surround Delay**
1. Press the SETUP button.
2. Use < or > button to select the Audio, press the ENTER button.
3. Use ▲ or ▼ button to Surround Delay, then repeatedly press the ENTER button to select the desired Surround Delay type. 0/15ms, 5/20ms, 10/25ms or 15/30ms appears.
4. To exit the FUNCTION SETUP MENU and return to the normal screen, press the RETURN button.

Notes:
• The first number represents the Dolby Digital and the second number represents the Pro Logic.
• The delay adjustment depends on the location of your surround speakers and the front speakers. If the location of the surround speakers is closer than the front speakers, the delay adjustment can compensate the distance difference.
Customizing the Function Settings

Center Delay

Press the SETUP button.
Use < or > button to select the Audio, press the ENTER button.
Use A or T button to Center delay, then repeatedly press the ENTER button to select the desired Center Delay type. 0ms, 1ms, 2ms, 3ms, 4ms or 5ms appears.
To exit the FUNCTION SETUP MENU and return to the normal screen, press the RETURN button.

Right: Pink noise comes out from front right speaker for testing.
Left sur: Pink noise comes out from rear surround left speaker for testing.
Right sur: Pink noise comes out from rear surround right speaker for testing.
Subwoofer: Pink noise comes out from subwoofer for testing.

When using the pink noise generator to test your speakers, you can press the SOUND button on the remote control to adjust the channel balance. Please "Adjusting the Sound" on page 15.
Customizing the Function Settings

**RATING setting**

*Password/Parental lock*

DVD discs equipped with the password function are rated according to their content. The contents allowed by a parental lock level and the way a DVD disc can be controlled may vary from disc to disc. For example, if the disc allows, you could edit out violent scenes unsuitable for children and replace them with more suitable scenes, or you could lock out playback of the disc altogether.

1. Press the SETUP button.
2. Use ← or → button to select Rating, press the ENTER button.
3. Use ▲ or ▼ button to select parental lock and then press the ENTER button repeatedly to set the parental lock level.
4. Use ▲ or ▼ button to shift and select Password, enter your 4-digit security code and then press the ENTER button.

If you make a mistake before pressing the ENTER button, press the CLEAR button and enter your 4-digit security code again.

You cannot play DVD discs rated higher than the level you selected unless you cancel the parental lock function.

The parental lock level is equivalent to the following ratings.

<table>
<thead>
<tr>
<th>Level 1</th>
<th>Kid Safe</th>
</tr>
</thead>
<tbody>
<tr>
<td>Level 2</td>
<td>G</td>
</tr>
<tr>
<td>Level 3</td>
<td>PG</td>
</tr>
<tr>
<td>Level 4</td>
<td>PG_R</td>
</tr>
<tr>
<td>Level 5</td>
<td>R</td>
</tr>
<tr>
<td>Level 6</td>
<td>NC_17</td>
</tr>
<tr>
<td>Level 7</td>
<td>Adult</td>
</tr>
</tbody>
</table>

To exit the FUNCTION SETUP MENU and return to the normal screen, press the RETURN button.

- Indicates Parental lock is NOT active.
- The Parental lock is active.

If you forget the password, you can erase your current password by pressing number button 8 on the remote four times, then press the ENTER button to confirm the setting.

**PASSWORD**: 8 8 8 8
Customizing the Function Settings

**Factory Set**

If you want to return the initial language setting to the factory default, do the following:

1. Press the SETUP button.
2. Use  button to select the Rating, then press the ENTER button.
3. Use  button to shift and select the Factory Set, then press the ENTER button.
4. Use  button to shift and select Yes, then press the ENTER button.

To exit the FUNCTION SETUP MENU and return to the normal screen, press the RETURN button.

*Note:* When you reset the Unit to the factory default, the Unit will take 3-5 seconds to reset.
Radio Operation

**Tuning into a station manually**
1. Press the FUNCTION button until the frequency band appears on the display.
2. Press the BAND button on the remote or • STOP button on the front panel to select the desired band.
3. Press the •+< TUNING • button to tune in the desired station.

**FM Stereo**
- Press the FM MODE button on the remote until "STEREO" appears on the display.

**Weak FM stations**
- Press the FM MODE button on the remote until the "MONO" word appears on the display. Background noise will be reduced but the signal reproduced will be mono. To restore stereo reception, press the FM MODE button on the remote to select STEREO.

**Note:**
- The left / right front speakers and subwoofer are activated only.

**To search for a station automatically**
- Hold down the •+< TUNING • buttons on the remote or •< SKIP • buttons on the front panel for 1 to 2 seconds, and a station is searched for automatically. After tuning in a station, the search stops.
- The search may not stop at a station with a very weak signal.

**Presetting stations**
You can tune into a stored station directly by entering the preset number.
- 20 stations on FM band can be preset.
- 20 stations on AM band can be preset.
1. Press the FUNCTION button until the frequency band appears on the display.
2. Press the BAND button on the remote to select the desired band.
3. Use the •+< TUNING • button to find your desired station.
4. Press the MEMORY button on the remote.
5. Press the •+< NEXT • or PREV • button to select the preset number and press the MEMORY button on the remote to store the station.
6. Repeat steps 2-5 to store other stations.

**Tuning into a preset station**
1. Press the FUNCTION button on the front panel until the frequency band appears on the display.
2. Press the BAND button on the remote to select the desired band.
- Press the • PLAY button and •+< NEXT • or PREV • button to select the presetted station or use the numbered buttons to enter the number to select the presetted station.

**Example:** To select preset number 15, press the +10 and 5 buttons.
- To select preset number 10, press the +10 and 0 buttons.

Maintenance

Cleaning Disc
A defective or soiled disc inserted into the unit can cause sound to drop out during playback.

Handle the disc by holding its inner and outer edges.

- Do NOT touch the surface of the unlabeled side of the disc.
- Do NOT stick paper or tape on the surface.
- Do NOT expose the disc to direct sunlight or excessive heat.
- Clean the disc before playback. Wipe the disc from the center outward with a cleaning cloth.
- NEVER use solvents such as benzine or alcohol to clean the disc.
- Do NOT use irregular shape discs (example: heart shaped, octagonal, etc.). They may cause malfunctions.

Cleaning the Unit

- Be sure to turn the unit off and disconnect the AC power cord before maintaining the unit.
- Wipe the unit with a dry soft cloth.
  - If the surfaces are extremely dirty, wipe clean with a cloth which has been dipped in a weak soap-and-water solution and wrung out thoroughly, then wipe with a dry cloth.
- Never use alcohol, benzine, thinner, cleaning fluid or other chemicals. Do NOT use compressed air to remove dust.

Important Note

Before transporting the unit, remove disc from the CD tray.

Trouble Shooting Guide
